

The **Breast Cancer Project** is an established comprehensive effort in our service area which encourages and educates women about breast health and the importance of early detection. This effort provides screening mammograms and diagnostic mammography services to uninsured women who meet ACS High Risk criteria or are forty years of age and older. This program is made possible through grant funding from IBCAT, the Michigan City Women’s Bowling Association, the La Porte City Fire Department Local 360 and other community partners.

Do I meet the Criteria?

- Age 40 and older *OR* meet High Risk Status as defined by American Cancer Society (physician must determine ACS High Risk Status)
- Uninsured, underinsured, or participating in a High Deductible Health Care (HDHC) plan
- Income Guidelines (updated in 2017):

Number in Household	Maximum yearly income allowed
1	\$36,180
2	\$48,720
3	\$61,260
4	\$73,800
5	\$86,340
6	\$98,880
7	\$111,420
8	\$123,960

How do I get a voucher?

If you meet all three criteria above, please schedule an appointment with your physician. Bring this paper with you to the appointment or reference the La Porte Hospital Foundation/Healthcare Foundation of La Porte’s mammogram voucher program.

For Physicians:

If you do not have the paperwork for the mammogram voucher, please call the La Porte Hospital Foundation/Healthcare Foundation of La Porte (219.326.2471) to request a copy. Please do so while the patient is still in your office as you will need the patient’s information and signature. Once you have the paperwork, please follow the procedure on the bottom of page two for how to request a voucher.
