& Nathan Loucks, Class Spokesperson

Announcement of Grant Recipients
Maria Fruth

Guest Speaker
Mayor Mark Krentz, City of La Porte

Closing Remarks and Pictures
Maria Fruth
Dear Community Leaders,

Since opening our doors in March of 2016, we have been focused on creating the structure of the new foundation. A lot of time and effort was spent learning more about our community needs, learning from peers of established foundations throughout the country, finding the best investment firm partner, crafting policies and procedures, selecting grantmaking and scholarship software, building and launching Ten2030.org as our first gift of data to the community, and much more...

At our 2017-18 Strategic Road Map meetings in March and April of 2017, the board selected three strategic areas of focus: Healthy Living, Healthy Minds and Healthy Children. The HFL Board of Directors also approved Responsive Grants – grants under $25,000 – to attend other health and wellness needs in the community not included in the three selected strategic areas and Capacity Building Grants.

Capacity Building for nonprofit organizations was identified as a need during our 40 individual introductions of our community partners to the HFL team and board members during our Get to Know sessions. Our first initiative has brought 23 nonprofits to our sponsored Nonprofit Leadership Academy, a certificate program from Indiana University, with a curriculum tailored for the needs of the La Porte County nonprofit organizations. Each organization representative received a full scholarship. This is the first step in supporting our nonprofits to create stronger and more effective organizations serving our community. We proudly introduce our first class of 15 graduates today!

With our first grant cycle completed in November of 2017, it was time to pause and assess lessons learned, funding focus and our role in the community. It was time to again listen, learn and refine. Our Strategic Road Map for 2019-2020 is the culmination of this assessment and planning process. But this is not a path we walk alone. HFL’s evolution is logical as money alone cannot change a community. A significant part of the plan relies on the development and enhancement of deeper partnerships with and across organizations and our community. It is only by working together toward common goals that we will successfully reach our vision.

We are excited to celebrate our 2018 grant recipients and scholarships recipients and to announce some special projects. Thank you for your partnership!

Sincerely,

[Signature]

Birthweight is an important indicator of a healthy start to life and is also a reflection of maternal quality of life. Failure to close the gaps in poor birth outcomes has lifelong implications for the health and well-being of our children, families and community.

La Porte County infant mortality and low birth weight rates are higher than the state of Indiana and the top U.S. performers. **Partners for Healthier Babies**, an initiative of HFL, is working to solve this tragedy of preventable baby deaths by establishing and improving impactful strategies for maternal and child health in La Porte County. This coalition is a collaboration between medical providers, public health agencies, nonprofit organizations, parents and community members. **Partners for Healthier Babies** will address the social, behavioral and health risk factors that contribute to infant mortality and low birthweight to make a positive impact on birth outcomes.

SPECIAL PROJECTS

We know that we have many community needs. Trying to address all of them is not a viable approach. We will continue the grant structure as is but will also deep dive into two areas:

- **Opioid crisis: Partners in Prevention**
- **Low birth weights and infant mortality: Partners for Healthier Babies**

Both areas are of significant concern and will require collaborating closely with community partners who have the expertise to create, launch and accelerate solutions. We will work hand-in-hand with our partners to help identify best practices, secure funding sources and move the dial toward impact. Together we will accomplish our shared vision and impact benchmarks.

See page 13 to learn about our other special project, **Partners in Prevention**.

Organizations participating in **Partners for Healthier Babies**

- Dunebrook, Inc.
- Franciscan Alliance, Maternal Care
- Franciscan Alliance, Physician Network, OB Offices
- HealthLinc Community Health Center
- La Porte County Health Department
- La Porte Hospital, Women’s & Children’s Service Line
- La Porte Physicians, OB Offices
- La Porte Community Health Center & Dental Clinic
- Women’s Care Center
The health of La Porte's children is one of our greatest priorities. The lifelong benefits of good childhood health, for both individuals and communities, have led us to identify Healthy Children (prenatal to end of high school) as an HFL Strategic Focus Area.

GOALS

- Decreasing the number of low birthweight births
- Decreasing the number of preterm births
- Decreasing the number of uninsured children
- Reducing childhood obesity
- Reducing teen births
- Improving education about tobacco and drug usage and their consequences
- Increasing safety in homes and schools
- Increasing access to mental healthcare for children
- Increasing the number of children and parents making informed decisions about good childhood health and its lifelong benefits
12 GRANTS

Women’s Care Center ........... $25,000
Building Capacity for Healthier Babies
Ongoing health services and support to expectant mothers and babies
Obesity and weight-related chronic disease are severe obstacles to a person’s ability to live a long and fulfilling life. The many negative consequences of unhealthy weight, poor diet and physical inactivity can lead to serious health risks, greater medical costs and a lower quality of life. We are committed to reducing the negative effects of poor physical health and its impact on our community and therefore identify Healthy Living as a Strategic Focus Area.

GOALS

• Reducing obesity and weight-related chronic diseases
• Improving access to healthy foods, reducing food deserts
• Increasing community-wide focus on active living and fit lifestyles

Wheelchair Ramp/Home Safety Repair Program
Construct wheelchair ramps and perform home safety repairs for elderly and/or disabled low-income residents who require this assistance

The Social and Learning Institute for the Disadvantaged, Inc. .... $10,000
Health & Wellness Program
Program and classes to achieve health goals and benchmarks for students
HFL commissioned a three-part study through the Center for Health Policy from the IU Richard M. Fairbanks School of Public Health that assessed the burden of opioid addiction in La Porte and identified the community’s needs or gaps in providing adequate treatment services. One of the recommendations from the La Porte County Opioid Study was to use prevention programs in schools to combat the opioid epidemic. School-based prevention is an effective long-term strategy to stop substance use and save lives. Schools in La Porte have an opportunity to equip students with skills that not only help them avoid drugs and tobacco but can also help improve their academic achievement, attendance, classroom behavior and social and emotional well-being.

In HFL’s grant initiative, Partners in Prevention, schools can apply to receive funding for planning and three-year implementation grants, technical assistance, and evaluation for proven substance use prevention programs. We will connect grant recipients with prevention experts who will provide free, step-by-step guidance to help: 1) identify the proven prevention programs that best meets the needs of the school’s students, staff and environment and 2) develop a plan for sustainable implementation. HFL will fund outside evaluators to assess approved implementation grant programs for desired outcomes and to ensure programs are delivered with fidelity.

The HFL Board of Directors has approved up to $2.8 million in grant funding for Partners in Prevention over the next four years. In December 2018, $100,000 will be awarded for planning grants to 15 schools in La Porte County for prevention programs affecting approximately 19,000 students.

This program is modeled after the Richard M. Fairbanks Foundation program Prevention Matters. We thank them for their support.
Behavioral and mental health are a vital component of a person’s wellbeing. Mental health disorders, substance abuse and tobacco use negatively impact overall health and quality of life and can place a burden on entire communities. The negative impact of mental illnesses and substance abuse on our neighbors and our community has led HFL to identify Healthy Minds as a Strategic Focus Area so that we can support programs that focus on the prevention and treatment of mental and behavioral health issues.

GOALS

- Increasing access to care for mental illnesses
- Increasing access to treatment for substance abuse
- Decreasing drug usage
- Decreasing tobacco usage
- Decreasing controlled substances dispensed
- Decreasing alcohol related driving accidents
9 GRANTS

9 ORGANIZATIONS

Awards

Citizens Concerned for the Homeless, Inc.................. $24,000
Keys to Hope Community Resource Center Case Manager
Case manager who will increase positive outcomes for community members seeking support from Keys to Hope

Planning grants to 15 schools in La Porte County for prevention programs affecting approximately 19,000 students
HFL identifies health as “a state of complete physical, mental and social wellbeing and not merely the absence of disease or infirmity” as defined by the World Health Organization. We recognize that wellness is the “active process through which people become aware of, and make choices toward, a more successful existence” and the six dimensions of wellness are emotional, occupational, physical, social, intellectual and spiritual as developed by the National Wellness Institute. Healthy La Porte Responsive Grants meet our community’s health and wellness needs that fall outside of the three Strategic Grant Areas and demonstrate a connection to HFL’s mission and vision.

GOALS

• Expansion of successful existing programs that improve the health and wellness of the residents within the City of La Porte and surrounding areas

• New initiatives to attend health and wellness needs identified within the City of La Porte and surrounding areas

• Collaborations to better attend health and wellness needs identified within the City of La Porte and surrounding areas

Ten 2030

Ten2030.org is the first gift given to the La Porte community by HFL. This website is an up-to-date source of population health and socioeconomic data, providing resources for community assessment, strategic planning, promising practices, collaboration and advocacy. Local health and wellness resources can also be found through this website. If your organization is not currently listed on Ten2030.org and would like to be, please email us at contact@hflaporte.org.
Nonprofit Leadership Academy

HFL is proud to offer a Nonprofit Leadership Academy for La Porte County’s nonprofit community through Indiana University’s Executive Education Department at the School of Public and Environmental Affairs. These competency courses cover areas of expertise vital for non-profit leadership and are led by experienced practitioners to facilitate effective application learning methods. Leaders from local nonprofit organizations participate in six classes: Nonprofit Management in the 21st Century, Strategic and Operational Planning, Fundraising, Finance, Marketing & Communication, and Results Based Accountability™. After successful completion of all classes, participants receive a Nonprofit Leadership certificate from Indiana University.

La Porte Meals on Wheels

Sandra Cogwell

We are honored to partner with La Porte Meals on Wheels to support their continued growth and sustainability. The goal of the collaboration is to improve organizational and financial stability and program quality and growth to ensure that our local Meals on Wheels can continue to carry out their mission. Capacity building efforts include: IT replacement and ongoing support, strategic planning, fundraising planning, marketing and outreach planning, volunteer recruitment and retention, board governance and professional development for staff, volunteers and board. We have developed a blueprint that will be used to support other nonprofit organizations in La Porte who identify this need.
HFL recognizes the invaluable role that the former La Porte Hospital Foundation’s signature programs and events played in our community. The two foundations blended their financial and operational efforts together as of January 1, 2017, and HFL continues to maintain these programs and events in support of our mission to empower residents to live healthy and well in and around La Porte.

Assistance to community members including:

- Access to Medication
- Breast Cancer Prevention
- Cancer Patient Assistance
- Chapel Programs
- Children’s Programs
- La Porte Hospital Auxiliary Projects
- Samaritan Assistance

Proceeds provide direct support to local patients with cancer

Proceeds support Healthy Children initiatives
